

## White Collar Crime

The unfortunate reality is that 60% of all crime against companies is committed by insiders, and 30-50% of all business failures are due to employee theft.\* Gray Plant Mooty's attorneys help protect you, developing policies and practices that deter bad behavior. We have significant experience investigating and counseling clients on employee misconduct. And we've successfully litigated a number of cases involving employees who have stolen money, trade secrets, or other property from their former employers.

If an employee's conduct should cause you to be investigated, our Employment Law team works closely with our White Collar Defense team, which has successfully represented clients in a broad range of criminal and regulatory matters. At the same time, we help you craft common-sense solutions to minimize penalties, bad publicity, and business disruption.

Meet our White Collar Defense team.
