

# Sexual Harassment Training for Managers and Human Resources Professionals

**February 14, 2018**

Spend your Valentine's Day with Gray Plant Mooty!

Sexual harassment scandals have dominated the headlines during the past several months, and the #MeToo movement has raised unprecedented awareness of sexual harassment in the workplace. This has left many employers wondering, "What do we need to do differently to keep our company out of the headlines?"

In this 90-minute training designed for managers, supervisors and HR professionals, we will examine how the current climate is impacting the workplace. We'll review what managers, supervisors and HR professionals need to do to identify early warning signs of potential harassment, how to respond to harassment allegations and how to create a culture where employees feel comfortable bringing their concerns to management. And, of course, it wouldn't be Valentine's Day without a discussion of office romance and how employers should navigate these tricky waters. Bring your toughest questions for an engaging, live session with GPM attorneys. We would LOVE to have you in attendance!
