

GPM Attorneys Author Fact Sheets on Legal Issues Facing Farmers

June 2015

Eight Gray Plant Mooty attorneys recently contributed to a series of updated fact sheets put out by the University of Minnesota's Agricultural Business Management program. The series comprises 24 fact sheets in total, examining a wide range of farming and agricultural legal questions, including entity formation, labor law, real estate, and many more. This interdisciplinary approach provides farmers with a clearer understanding of the many legal issues that can impact their businesses.
